Hotel/ Restaurant Collection

Bios Hide at the 5* Fontenay in Hamburg

About Us

Unknown Nordic is a Danish company that specializes in products made of fibers extruded from volcanic lava. We design and produce high-end products that are sold all over the world. Our product range ranges widely from exclusive outdoor furniture to fence and facade panels to terrace boards.

Our focus at Unknown Nordic is to create aesthetic and functional solutions. With our material, we can create organic sculptural designs that you will never tire of looking at. And with our unique handmade patterns, you are guaranteed your very own products.

We are constantly developing our technology in order to ensure that we are as sustainable and environmentally friendly as possible.

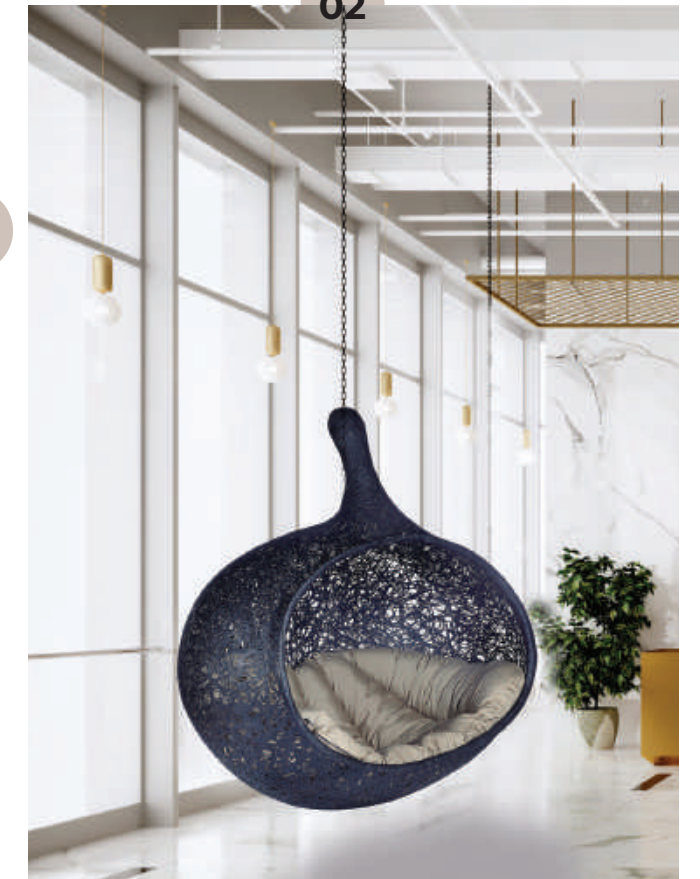

The superior material

All products from Unknown Nordic are made from a combination of basalt fibers and bio resin. The basalt fibers are extruded from volcanic lava and made into very thin fibers. Hereafter the fibers are mixed with bio resin and shaped by hand on molds. The result is that every piece of furniture has a unique pattern...

The material has some extraordinary properties, where the most important are heat absorption, resistance to salt and chlorine, sound reduction, a strength 3 times the strength of steel and no maintenance requirements.

Bios Collection

Bios

With its open and aesthetic handmade pattern the Bios Hanging Chairs are the perfect place to find comfort and relaxation. Not only does the appearance of the Bios Hanging Chairs have a close resemblance to that of a tree crown, these iconic hanging chairs also give the user the same feeling of comfort and safety as the tree crowns offer to its occupants. The Bios hanging chairs are the true manifestation of Nature Shaped by Hand.

Bios Collection

Hanging chairs from Unknown Nordic, a delightful fusion of comfort and style, have become increasingly popular in contemporary interior and exterior design. These suspended seats offer a unique and whimsical addition to any space, combining functionality with aesthetic appeal.

One of the notable features of hanging chairs is their versatility. Whether indoors or outdoors, these chairs effortlessly blend into various settings. Indoor, they serve as eye-catching focal points, providing an alternative seating option that adds a touch of playfulness. Outdoors, hanging chairs create inviting spaces for relaxation, transforming gardens, patios, or balconies into cozy retreats.

And with the ever increasing attention to spa retreats the Unknown Nordic hanging chairs are the need to have product. The gentle swinging combined with the noise reducing material offers the outhmost relaxation zone.

The design of hanging chairs contributes significantly to their allure. Handcrafted from a combination of materials such as basalt fibers extruded from lava stones, Bio Resin and a soft touch polyurethan coating these chairs come in diverse styles to suit different preferences. The various chairs offers accomadation for 1-3 persons.

The Bios hanging chairs are more than just pieces of furniture; they are statements of style and relaxation. With their aesthetic designs, comfort-focused features, and adaptability to different spaces, these suspended seats continue to capture the imagination of those seeking a perfect blend of form and function in their surroundings. Whether indoors or outdoors, the Bios hanging chairs invite individuals or pairs to experience the joy of suspended serenity in a world that is constantly in motion.

Chairs & Tables

01. STELLAR Chair

02. RKL1 Dining Chair

Outdoor dining chairs play a pivotal role in shaping the ambiance, comfort, and overall enjoyment of any outdoor space.

03. LAVA LOUNGE

01. ONLY Chair

02. HUG Chair

03. X Chair

Outdoor chairs contribute significantly to the visual appeal of the outdoor area. Coordinating the chairs with the overall theme of the outdoor space will help create a cohesive and inviting atmosphere.

In the competitive landscape of the hospitality industry, hotels are continually seeking innovative ways to enhance the guest experience. One key aspect that has gained significant attention is the thoughtful selection and arrangement of outdoor furniture. Beyond mere aesthetics, outdoor furniture in hotel spaces serves as a crucial element in creating inviting, comfortable, and memorable environments for guests.

Outdoor furniture serves as an extension of a hotel's brand identity. The design, color scheme, and overall aesthetic of the furniture should align with the hotel's theme and ambiance. Consistency in design elements reinforces the brand image and creates a cohesive experience for guests.

In a bustling hotel environment, where staff must attend to numerous tasks, outdoor furniture that is easy to maintain is essential. Opting for materials that are easy to clean and require minimal upkeep helps in preserving the aesthetics of the furniture with minimal effort.

Lava Nest Fire Pit

Lava Nest Fire Pit

Outdoor fire pits are unparalleled in their ability to create a captivating atmosphere. The dancing flames provide a mesmerizing focal point, casting a warm glow that instantly elevates the ambiance of any outdoor space. The Lava Nest Fire Pit is both a functional product offering cooking possibilities on the stainless Teppenyaki and Grate while at the same time elevating the ambiance. On evenings where only creating the ambiance is needed, the Fire Pit can be equipped with a Bio-Ethanol insert.

Planters

Planter Circle100

In the realm of hospitality design, outdoor planters play a crucial role in transforming hotel environments into lush and inviting retreats. From grand entranceways to rooftop terraces, the strategic placement of outdoor planters adds a touch of greenery, creating a welcoming and visually appealing atmosphere.

Hotels often feature outdoor spaces such as courtyards, patios, and terraces. Outdoor planters can be used to create inviting pockets of greenery, transforming these areas into serene oases where guests can relax and unwind amidst nature.

The Planters from Unknown Nordic are for both indoor and outdoor.

Planter Square30, 60 & 90

Spheres

Outdoor spaces come to life with the addition of decorative lighting, transforming gardens, patios, and landscapes into enchanting realms after sunset. Beyond practicality, decorative outdoor lighting adds ambiance, visual interest, and a touch of magic to the surroundings.

Decorative outdoor lighting has the power to transform outdoor spaces into enchanting retreats. By incorporating a variety of lighting elements like the Unknown Nordic Spheres and Planter Bio-ethanol solutions, you can create a captivating ambiance that enhances the beauty and functionality of any hotel or restaurant outdoor living areas.
